ABSTRACT

The booklet provides information and sources on financial aid for American Indian college students. The introduction explains college-based funding, federal aid programs, American Indian financial aid sources, and financial aid package. The section on admissions and financial aid process outlines procedures the undergraduate or graduate student must take when interested in attending college or wanting to apply for financial aid. Federal aid programs and the Bureau of Indian Affairs Higher Education Grant/Loan Program are described under major scurces of financial aid. Additional sources of financial aid include organizations that provide scholarships, grants, or loans for undergraduate or graduate students. Each citation provides the following information: address and phone number, contact person, type of aid, deadline, duration of financial aid, amount, requirements of applying (i.e. field of study, school, grade point average), and comments. The last section lists colleges and universities located in the Southwest (Arizona, California, Colorado, New Mexico, Nevada, Oklahoma, and Utah) that have special programs for American Indian students and offer financial assistance and other support services. Each citation provides name, address, and phone number of institution, population or percentage of American Indian students, student organizations on campus, special studies or programs, and tuition and fees. A List of Minority and American Indian Programs at a Few Colleges and Universities in the Southwest 21

INTRODUCTION

A college education costs money. But money is available to cover the costs. You can earn as you learn, working at part-time jobs in the summer, or at work-study or co-op assignments. You can borrow money through local financial institutions, or through the college you attend. Or you can apply for a grant or a scholarship. To the extent possible money earned ahead of time or family help should be used.

In addition to financial aid available to college students in general, there are sources specifically for American Indian students, including BIA Higher Education Grants, Tribal scholarships, and other funds designated especially for minority or American Indian students.

This booklet lists sources of financial aid for American Indian college students. It does not list every source, but it can be a beginning point in your search for funds with which to finance your education. Good luck!

College-Based Funding

Financial aid is available through the college you attend. State incentive grants, loans, and local scholarships are offered. Ask the college to send you their financial aid handbook. A list of a few college and universities that offer special programs to minorities and American Indian students is included at the end of this booklet.

Federal Aid Programs

The five Federal aid programs include the Basic Educational Opportunity Grants or Pell Grants, Supplemental Educational Opportunity Grants, College Work Study, National Direct Student Loans, and Guaranteed Student Loans. Eligibility requirements for each of these are described later in this booklet.

American Indian Financial Aid Sources

There are several sources of financial aid for minority students. American Indians may apply as minority students to these financial aid sources. You will be considered among other minority students.

The most common financial aid offered specifically to American Indian students is from the BIA through Tribal agencies and Area offices. In addition to these Federal funds, some Tribes grant scholarships from their funds for a student who is a member. Eligibility requirements and application procedures are included in this booklet.

Financial Aid Package

Together with the financial aid counselor at your college, you can put together a financial aid package – a combination of loans, grants scholarships and fellowships, and your own or your family's funds – that will pay for the cost of your education. Use this booklet to identify sources and to become familiar with the terms and procedures. Start now to apply for money to see if you are eligible. The sooner you apply for funding the greater is your chance of receiving aid.

ADMISSIONS AND FINANCIAL AID PROCESS

For the Undergraduate

Your junior year of high school is not too early to start thinking about the college or university you would like to attend. Check with your high school counselor, school or public library for listings of various colleges and where to write for more information. Write to the Admissions Office of the colleges or universities in which you are interested, requesting a catalog, an application for admission, and financial aid information. Pay attention to application deadlines. Late applications are not considered.

Determine whether you should take the American College Test (ACT) or the Scholastic Aptitude Test (SAT) and make arrangements with your high school counselor to take the exam. Either test may be taken in your junior year. At the latest, take the test in the fall of your senior year, if you hope to go to college by the next fall. Request that a copy of the test results be sent to the colleges and universities to which you are applying. Also arrange to have your high school transcripts sent to the Admissions Office of these schools.

Much of this information is written for the Indian high school student who wants to go to college. If you are an Indian who has been out of high school for years, there is no problem. Go back to your old high school counselor, even if you have a General Educational Development (G.E.D) degree. If you have moved far away, go to the nearest high school. If you have a G.E.D. you may substitute your scores and the certificate for a transcript. The high school will still help you arrange to take the test on the regular dates. Try to take them in the fall before you want to enter. In addition, a few universities also give residual tests, usually a week prior to enrollment. The test fees for these residuals are usually higher.

Decide on at least two – or even better – several colleges or universities you would like to attend, and apply to them. Fill out financial aid applications for each college at the same time you fill out admissions applications. Request a housing form if campus residency is required.

You can obtain a Financial Aid Form (FAF) from your high school counselor or from any college. Complete it and mail it to Berkeley, California. On the back of the FAF be sure to list all the colleges and universities to which you want the report sent.

Berkeley then mails out two reports: one to Basic Educational Opportunity Grant (BEOG) known as the Pell Grant, which is located at Iowa City, Iowa; and one to each of the colleges and universities the student has listed on the back of the FAF. BEOG then sends the Student Aid Report (SAR) to the student, and the student in turn sends these SARs to the Financial Aid Offices of his chosen schools.

The student is responsible for applying directly for scholarships and fellowships, which are awarded on academic ability and in some cases financial need.

The college or university will notify you in writing of your acceptance or rejection. You must respond to any acceptance offers within the time specified in the letter. If you are accepted at more than one school, the financial aid package will probably affect your final choice.

TIPS

- Take the ACT or SAT in April of your junior year in high school. It has been found that students usually score highest then. If you do not do well then, there is time to take the test again before applying for college admission.

- Read all instructions and forms carefully and follow directions exactly. If you do not understand a procedure ask your counselor.

- Note deadlines and make sure you meet them. Failing to meet a deadline can mean you are not even considered for admission or financial assistance.

- Maintain an emergency fund in case financial aid does not arrive on time.

For the Graduate Student

Obtain an application form from the graduate school of the institutions of your choice, complete it, and send it back to the graduate school, accompanied by the required application fee. Arrange to have necessary transcripts sent to the Dean of the Graduate School. If the Graduate Record Exam (GRE) or a similar exam is required, arrange to take it and have the results sent to the graduate school. These documents should be submitted no later than two months prior to your expected enrollment date. The earlier the better.

Graduate students who are applying to graduate school in an institution other than their undergraduate university can fill out a Graduate and Professional School Financial Aid Service (GPSFAS) form, which can be obtained from the graduate school office. This is a cooperative organization which serves 500 professional and graduate institutions. The organization does not give financial aid but helps graduate students find financial aid.

WICHE. The Western Interstate Commission for Higher Education (WICHE) maintains a Western Name Exchange Program which assists undergraduate students in selecting a university for graduate study. This program is a consortium of 27 universities engaged in a process of exchanging names of upper-level minority undergraduate students interested in pursuing graduate study. For further information contact: Western Interstate Commission for Higher Education, P.O. Drawer P, Boulder, CO 80302, (303) 497-0200.

Minority Graduate Student Locater Service. This is a computer-based search service to help graduate institutions and fellowship sponsors identify minority student interested in pursuing graduate studies. Graduate institutions and fellowship sponsors interested in increasing their pool of minority applicants subscribe to the service and request a listing of potential enrollees, based on the following variables:

- racial or ethnic background;
- intended graduate major;
- state of residence;
- eventual graduate degree objectives.

For further information contact: Minority Graduate Locater Service, Box 2615, Princeton, NJ 08541.

MAJOR SOURCES OF FINANCIAL AID

NOTE: Federally-funded student aid programs are constantly changing. Consult with your financial aid office for current information.

Federal Aid Programs

To apply for any of the following five funding sources, fill out a Financial Aid Form (FAF) which you can get from your counselor. The application for all four programs is included in the FAF.

Basic Educational Opportunity Grant (BEOG) or Pell Grant. These grants are offered to students who qualify based on need. They may be used at any accredited institution.

Supplementary Educational Opportunity Grant (SEOG). These grants are awarded to students who have an exceptional need for financial assistance.

College Work Study program (CWSP). This program is sponsored by the college and Federal government and offers part-time jobs to students who qualify for assistance during the school term.

National Direct Student Loan (NDSL). These are Federal loans administered by the college, which are repaid after graduation or quitting school. These loans may not have to be repaid by students entering particular fields under special conditions.

Guaranteed Student Loan. These loans are awarded to the needy student through credit unions, savings and loan associations, and banks. G.S.L. requires a separate application with a needs test. Apply in your state.

Undergraduates are eligible to apply for any of the five Federal aid programs. Graduate students may apply for only the College Work Study and the National Direct Student Loan. All students apply on the FAF.*

Bureau of Indian Affairs (BIA) Higher Education Grant/Loan Program

Keep in mind that money from the BIA is "supplemental." The law says that it may not be used to replace other Federal or state education funds. BIA grants are meant to be used after the rest of your financial aid package is put together. It is to fill in holes, not to build the wall.

As a citizen of the U.S. and a citizen of your state, you have the right to the same financial aid opportunities as any other student. As a citizen of your Tribe you are eligible for BIA and Tribal grants. BIA money is not a gift or a special favor because you are Indian. Rather, these funds are based on contractual rights in treaties with the Federal government in exchange for Indian lands.

Eligibility Requirements. A grant is available to you as a member of the Indian Tribe which is recognized by the BIA, if you have at least one-fourth degree Indian blood, have financial need, and have been admitted for enrollment in an accredited institution of higher education.

Selection of a University or College. A student must attend an institution of higher education that has been accredited by a nationally

*"The Student Guide: Five Federal Financial Aid Programs, 1982-1983," U.S. Government Publication No. E-81-15001.

recognized accrediting agency or association and which provides an education program culminating in a bachelor's degree or an acceptable two-year program leading to an associate's degree.

Application Procedures.

- Obtain an application form for a grant from the Area or Agency office that has service responsibility for your Tribal group. [See list on page 6.]
- Contact your BIA Tribal census office to obtain a Certificate of Degree of Indian Blood (CDIB) and Tribal enrollment. Attach CDIB to application.
- Complete and mail documents back to the BIA office well in advance of deadlines. Include these documents:

Certificate of Degree of Indian blood (initial applicants only);
High School Transcripts or G.E.D. Score (initial applicants only);
or Grades and Transcripts from Previous College Semester;
BIA Grant Application;
Letter of Acceptance from College or University;
Certified Financial Aid Package from Financial Aid Office.

Be sure your college receives:

Needs Analysis Application (i.e., Family Financial Statement (FFS), etc.);
BIA Financial Aid Package Form to be completed by Financial Aid Office.

Deadlines for BIA Application.

Fall Semester, Academic Year: June 1
Spring Semester, Academic Year: October 15
Summer Session: April 15

Deadlines for Colleges/Universities. Beginning in January and usually before March 15. Critical: check deadline for the colleges of your choice well in advance.

Satisfactory Academic Achievement for Continuance of Grant Awards. All students must complete 12 or more quarter/semester hours with a minimum of a 2.0 grade point average (GPA) per quarter/semester.

TIPS

It is your responsibility to take care of these expenses: admissions application fee, housing deposit, transportation costs, and any other fees which may be necessary before registration. Pay by money order or check and keep receipts. A few, like the application fee, may be waived in certain cases at your request. Important: any BIA grant awarded to a student cannot be made available until that student arrives on campus to register.

Tribal Scholarships

Many Tribes give out BIA money. However, in addition to BIA education funds, some Tribes may have other money available for Tribal members to use to attend college. These funds may be in the form of grants or low-cost loans. Students should ask their Tribal Education Office if their Tribe provides such funds and how to apply for them.

••••••••••

SANDIA NATIONAL LABORATORIES
OYC Recruiting and Employment Coordinator
Division 3511
P.O. Box 5800
Albuquerque, NM 87185

CONTACT: Jim Shorty *PHONE:* (505) 844-9341
TYPE OF Aid: One Year on Campus Program - Master's degree program.

DEADLINE: About six months prior to completion of the requirements for the Bachelor's degree.

DURATION: 12 months

AMOUNT: All expenses related to completion of the Master's degree, including tuition, books, and stipend for living expenses, and moving costs are paid by Sandia National Laboratories.

REQUIREMENTS: Candidates must possess a bachelor's degree in one of the approved fields. In addition, high academic performance and admissibility to the desired graduate school are principal criteria for selection for the program.

SCHOOL OR UNIVERSITY: Contact Sandia for list of schools.

REQUIRED FIELD OF STUDY: One of the engineering fields appropriate to Sandia National Laboratories' program: chemical engineering, civil engineering (structural), computer science (engineering), electrical engineering, engineering mechanics, engineering physics, materials (engineering), mechanical engineering, nuclear engineering, and theoretical and applied mechanics.

COMMENTS: Initial employment will be for the period between the completion of the Bachelor's Degree and the beginning of the next academic year the following fall. Satisfactory completion of the Master's Degree is a condition for continued employment. The Master's Degree must be completed within a 12-month period at a specific department and school from the list of approved schools.

●●●●●●●●●●

A LIST OF A FEW COLLEGES AND UNIVERSITIES IN THE SOUTHWEST

Many colleges and universities have special programs for American Indian students that offer financial assistance and other support services. Below is a list of a few colleges and universities in the Southwest and programs and servcies they offer. These universities all offer assistance in acquiring federal and BIA support as discussed on pages 1-6 in addition to the special programs listed. The information was collected in 1984 by the Indian Resource Development program. To write for more information, address letter to: Office of Admissions, Name of University, City, State, Zip. Immediately under the name of the university, the city and zip code are listed.

ARIZONA

ARIZONA STATE UNIVERSITY
Tempe, AZ 85287
Phone: (602) 965-3040

PERCENTAGE OF AMERCIAN INDIAN STUDENTS TO TOTAL STUDENT POPULATION: 2%

SPECIAL PROGRAMS: American Indian Leadership Program is designed to promote both an academic and cultural balance for the Indian student participant. The Leadership Program is for those

American Indian and Alaska Native students who are deeply concerned with education as a path to the ultimate acquisition of knowledge. As such, the goals and objectives of the program recognize and reinforce the idea of education as a continual and all encompassing process.

STUDENT ORGANIZATIONS ON CAMPUS: Native American Students Association; American Indian Law Students Association; American Indian Science and Engineering Society.

FINANCIAL AID: Minority Recruitment Scholarships: one year tuition; must be an Arizona resident and an Arizona graduate; must be admissible into desired college; must be full-time students.

TUITION AND FEES: Estimated expenses (includes general university fees, books, supplies, and residence halls, including meals): Arizona resident $3,375 annually; $1,688 per semester. Fees are subject to change without notice. Rates will also vary depending on the residence hall in which a student lives.

••••••••••

CENTRAL ARIZONA COLLEGE
Coolidge, AZ 85228
Phone: (602) 836-8243

POPULATION OF AMERICAN INDIAN STUDENTS: 350
PERCENTAGE TO TOTAL STUDENT POPULATION: 8%
STUDENT ORGANIZATIONS ON CAMPUS: Native American Club
TUITION AND FEES: (Based on 12 credit hours or more) Arizona residents $180 each semester; out-of-state students $1,476 each semester. There are no facilities on campus for married students. Dormitories for single students are available for $810 per semester (plus a $50 deposit). These rates are subject to change without notice.

••••••••••

COLLEGE OF GANADO
Ganado, AZ 85605
Phone: (602) 755-3442

POPULATION OF AMERICAN INDIAN STUDENTS: 380
PERCENTAGE TO TOTAL STUDENT POPULATION: 99%
SPECIAL PROGRAMS: Developmental Studies and the Learning Center assist students whose basic skills in reading, writing, and mathematics need improvement. Tutoring is also available.
SPECIAL STUDIES: Forestry Technician and Range Technician programs, Renewable Natural Resources studies, Data and Word Processing Certificate Program and the Teacher Aide Program.
SUMMER PROGRAMS: **Gateway to College** is a five week summer program for high school graduates who wish to improve their basic skills before entering college in the fall.
OTHER INFO: The College of Ganado serves predominantly Native American students which all programs are geared to.
TUITION AND FEES: $576/semester and $150 for fees
ROOM AND BOARD: Room – $668/semester
Board – $1,061/semester

••••••••••

EASTERN ARIZONA COLLEGE
Thatcher, AZ 85552
Phone: (602) 428-1133

POPULATION OF AMERICAN INDIAN STUDENTS: 70
PERCENTAGE TO TOTAL STUDENT POPULATION: 7%
STUDENT ORGANIZATIONS ON CAMPUS: The Inter-tribal Club

provides a focal point for information, awareness programs and social activities.

SPECIAL STUDIES: A course in Native American Culture is part of the general studies curriculum.

SUMMER PROGRAMS: None

COMMENTS: Indian student population largely represents the San Carlos and White Mountain Apache Tribes and Navajo students.

●●●●●●●●●●

NAVAJO COMMUNITY COLLEGE
Tsaile, AZ 86556
Phone: (602) 724-6109

POPULATION OF AMERICAN INDIAN STUDENTS: 1500

PERCENTAGE TO TOTAL STUDENT POPULATION: 96%

●●●●●●●●●●

GOLDEN WEST COLLEGE
Huntington Beach, CA 92647
Phone: (714) 895-8768

POPULATION OF AMERICAN INDIAN STUDENTS: 230
PERCENTAGE TO TOTAL STUDENT POPULATION: 1.24%
SUMMER PROGRAMS: EOP/S (Extended Opportunity Program and Services) offers a Summer Readiness Program to provide you with the experience of attending college and to introduce you to different career and educational alternatives.

●●●●●●●●●●

HARTNELL COLLEGE
Salinas, CA 93901
Phone: (408) 758-8211

POPULATION OF AMERICAN INDIAN STUDENTS: 200
PERCENTAGE TO TOTAL STUDENT POPULATION: 2%
SPECIAL PROGRAMS: The American Indian Program consists of a wide range of services to the students which will assist them in completing their education. Some of these are academic referrals, tutoring, student employment, transportation, house hunting, admissions, and counseling in financial aid, and in personal, career, or academic matters. The American Indian program also works closely with the College and the Monterey Bay Indian Council.
STUDENT ORGANIZATIONS ON CAMPUS: American Indian Student Association
FINANCIAL AID: The American Indian Program awards to deserving students supplement scholarships in the amount of $100 each for books and other school supplies.
COMMENTS: Our major goals are to do our best to help Indian students reach their goal in whatever area of study they may be seeking. Instructional support is not uncommon, but evaluation and follow-up by the instructional aides on their work set the American Indian program apart. They stay on a student problem until it is

resolved and at weekly meetings go over all contacts, evaluate their work and discuss how the program can improve services.

OTHER INFORMATION: The Pacific Ocean is right next door to Hartnell College and Monterey Bay and Carmel are in the neighborhood.

TUITION AND FEES: Tuition $70/unit; books range from $100 to $150

HOUSING: Housing on campus is not available

●●●●●●●●●●

HUMBOLDT STATE COLLEGE
Arcata, CA 95521
Phone: (707) 826-4791

SPECIAL PROGRAMS: Indian Teacher and Education Personnel Program, Native American Career Education in Natural Resources, and the Bilingual Education Program

STUDENT ORGANIZATIONS ON CAMPUS: Humboldt Indian Alliance – for social support, cultural exchange and friendship, ITEPP club (Indian Teacher and Educational Personnel Program).

SUMMER PROGRAMS: Upward Bound

COMMENTS: Native American Career Education in Natural Resources offers Indians the opportunity to qualify for professional employment in Natural Resources management. Majors at the BS level in Fisheries, Forestry, Oceanography, Range Management, Wildlife Management, Resources Planning & Interpretation. At the MS level are Fisheries, Forestry, Wildlife, and Interdisciplinary Natural Resources.

●●●●●●●●●●

RIVERSIDE CITY COLLEGE
Riverside, CA 92506
Phone: (714) 684-3240

POPULATION OF AMERICAN INDIAN STUDENTS: 14

PERCENTAGE TO TOTAL STUDENT POPULATION: .14%

SPECIAL PROGRAMS: Advanced Placement for High School Students

SPECIAL STUDIES: American Indian Studies (2 Hist, 1 Phil, 1 Engl)

●●●●●●●●●●

STANFORD UNIVERSITY
Stanford, CA 94305
Phone: (415) 497-2733

POPULATION OF AMERICAN INDIAN STUDENTS: 65

PERCENTAGE TO TOTAL STUDENT POPULATION: .5%

SPECIAL PROGRAMS: A Native American counselor/advisor, who is a counseling Dean on the Student Affairs staff, is available for consultation regarding personal as well as scholastic matters. This responsibility includes general administration of monies and matters that concern Native American students. Major areas of interest include recruitment, admissions, financial aid, counseling, affirmative action, relevent curriculum, coordinating activities, health care, orientation, monitoring academic progress, fund raising, and cultural center operations and housing.

STUDENT ORGANIZATIONS ON CAMPUS: Stanford American Indian Organization Newsletter 'Humming Arrows' put out by the SAIO, AISES Chapter

THE NATIVE AMERICAN CULTURAL CENTER: The basic purpose of the NACC is to keep our individual Indian identity a continual growing part of ourselves, to educate each other about our separate cultures, and to learn to respect each other's tribal ideas and reli-

gions. The NACC has become a focal point of Native American participation, social life, and community involvement.

SPECIAL STUDIES: Native American courses are offered through various departments. For example, a Navajo language class has been taught since 1979 and a class on Native American economics is taught in the spring quarter.

FINANCIAL AID: The California Student Aid Commission administers two different state-funded grant programs for college students who are legal residents of California.

COMMENTS: Admission is a very competitive process. Only 1500 freshmen are admitted out of approximately 15,000 that apply.

TUITION AND FEES: The estimated budget for the three quarter academic year of 1983-84 is: tuition, $9,027; room and board, $3,802; books and supplies, $400; personal expenses, $800; total, $14,029. Native American students are adequately funded by a variety of scholarships and loans. Any student accepted can afford to attend.

HOUSING: Most students live on campus during their undergraduate years. Roble Hall, a four-class, co-ed dormitory, gives Native American students the opportunity to live in one house, enhancing the feeling of unity.

GRADUATE OPPORTUNITIES: This University is strongly committed to increasing the enrollment of Native American students in the graduate and professional programs. Areas of advanced study offered at Stanford are numerous and diverse.

●●●●●●●●●●

UNIVERSITY OF CALIFORNIA-DAVIS
Davis, CA 95616
Phone: (916) 752-1099

SPECIAL PROGRAMS:
The *American Indian Program* provides services in counseling, tutoring, IHS medical referrals, tribal financial aid assistance, student employment, orientations, housing, tribal resources, typing, duplicating, presenting educational and cultural programs. Director: Harry A. Lujan; telephone, (505) 646-4207
The *Indian Resource Development* is a statewide program which recruits Indian students at the graduate and undergraduate level at the college of their choice to majors in natural resource related fields. These include agriculture, business, engineering, computer science, geosciences, environment and related science fields. Retention efforts are made to assist these students to graduate. Student should maintain a 2.5 GPA or above. Contact: Lance Lujan; telephone, (505) 646-1347.
STUDENT ORGANIZATIONS ON CAMPUS:
The *United Native American Organization* is open to all American Indian students. One of UNAO's main purpose is to bring American Indian students together and act as a supportive organization for each student to become aware and share the American Indian culture. The Southwest American Indian Days is held every spring and is sponsored by UNAO.
The *Society of American Indian Engineers* promotes the engineering profession among American Indian students enrolled in the College of Engineering. SAIE sponsors symposiums and travels to participate in professional conferences and is open to all American Indian students enrolled in engineering and persons interested in engineering.
The *Native American Business Student Association* is for Native American students enrolled in the College of Business Administration and Economics. Honorary membership is also available to any interested full-time student enrolled at NMSU. NABSA's objective is to promote the growth of American Indian business leaders of tomorrow, both in the private and tribal sectors.
SUMMER PROGRAMS: The Indian Resource Development sponsors a summer program which is an orientation to resource fields and university life that is open to high school sophomore and junior Indian students.
